OFFICE OF THE
COMPTROLLER OF THE TREASURY
Washington, D. C.,
February 17, 1902.

WHEREAS, By satisfactory evidence presented to the undersigned it has been made to appear that THOMAS NATIONAL BANK OF MT. STERLING, in the city of Mt. Sterling, in the county of Montgomery and State of Kentucky, has complied with all the provisions of the Statute of the United States, required to be complied with before an association shall be authorized to commence the business of banking;

Therefore, I, William B. Rogers, Comptroller of the Currency, do hereby certify that “THE NATIONAL BANK OF MT. STERLING,” in the city of Mt. Sterling, in the county of Montgomery and State of Kentucky, is authorized to commence the business of banking as provided in Section 5169 of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF, witness my hand and seal of office this seventh day of February, 1902.
(Signed):
WM. B. ROGERS,
Comptroller of the Currency.

[Seal]. No. 6139. 134

SEASON 1902.

The stallion season in this county for the year 1902 shows that our breeders have a high class lot of stallions, of both trotters and saddle horses, to select from. And we might also say that a Hackney will also make a season in this county. When saddle horses are so much in demand, and at such high prices, and mark you, they will be higher for several years to come, no breeder can afford to allow his saddle mares to remain idle at this time. Some of saddle horse men have tried and raised \$1,000 horses, and one a \$5,000 saddle horse. Why not you? As to trotters and road horses the world is just beginning to appreciate the sort we raise in Old Kentucky. The demand for good looking road horses was never more urgent than at the present time. If you get a trotter it takes nearly a King's ransom to buy one. Every farmer should raise a few colts. It matters not what his other stock interests are.

SADDLE HORSES.

J. H. Gillispie will this season have the noted saddle and harness stallion, Bourbon Chief, one of the best sires of high style horses in Kentucky. His colt, Montgomery Chief, selling last week for \$5,000 shows how he breeds. At the same stable will be King William, 2nd, the handsome black saddle stallion which is not only a fine saddle horse but a royalty lived one and a sire of high priced horses. Mr. Gillispie will also have the Hackney stallion, Wildfire. As we are not up on Cobs we give Tom Bigstaff as reference.

Wyatt & Thompson have McDonald Chief, a handsome bay stallion by Rex McDonald, the famous \$5,000 saddle horse of John Hughes. McDonald Chief is a show horse himself, having been shown 48 times in 1899 in half dozen states, winning 45 first premiums. He is finely bred and goes all the gates. Mr. John S. Wyatt, of the firm of Wyatt & Thompson, will also have the young saddle stallion, Choctaw Chief No. 1660, a son of the grand old horse, Bourbon Chief. He is a bay with good size and style and a fine saddle horse.

G. W. Hainline has this season the chestnut saddle stallion, Joe Bates. He is of good size, fine style and strongly saddle bred. Lee R. Cravens has Rex McDonald, Jr., a son of the famous show horse, Rex McDonald. Dam by Harrison Chief; 2nd dam Montrose; 3rd dam by Foley's Taylor. This stallion is finely bred, good size and a sire of high class saddle horses.

Jno. T. Woodford, whose reputation as a breeder of the saddle horses is not confined to this state, will have his usual number of stallions in the stud this season. As we have no card can not give an extended notice of his stallions.

TROTTERS.

Thompson & McDonald have Electrician, 2:24 1-2, son of Electioneer, sire of 150 in the list and one of the greatest producers of extreme speed in the world. 1st dam has 6 in the list, 2nd dam has 3 below 2:25, third dam is by Hambleton 10, the founder of trotters; 4th dam the grand old mare, Emma Mills, by American Star. This horse is bred in the purple and a sire of speed; his fastest being Midi, 2:14 1-4. When you remember that sons of Electioneer have given us such great horses as The Abbott, 2:03 1-4; Lord Derby, 2:06, and many other fast ones, you can realize what your chances are in breeding to Electrician. ROYAL BAKING POWDER CO., 100 WEST 30TH ST., NEW YORK.

G. Thompson of this firm is a born horseman and no man loves a good horse better than Charlie. He also owns some highly bred mares. One of them will foal by Moko this season, and we sincerely hope he will get a Percus or one good enough to win the Futurity.

John W. White will have this season the race horse and sire of speed, St. Vincent, 2:13 1-2. He is a bay stallion nearly 16 hands high a horse of fine points with plenty substance. His breeding is first-class, being by Wilkes Boy, 2:24 1-2 sire of 62 in the list. 1st dam has 3 in the list and two producing sons; 2nd dam, the famous old Betty Brown, 3 in the list by Mambrino Patchen; 3rd dam Pickles, by Mambrino Chief. St. Vincent is sire of 12 in the list, among them being the great race horse, Lord Vincent, 2:08 3-4. This horse should have a good season in this county.

W. E. Bean will have Cecil Wilkes, a young horse of fine size and action by Gambetta Wilkes, 2:25 1-2; sire of 101 in the list. 1st dam the great brood mare, Eye See, dam of 6 in the list, 5 of them being full sisters and brothers of Cecil Wilkes. The fastest being Eyelett, 2:06 1-2; 3rd dam Midnight, that produced Jay Eye See, 2:06; by pilot J. Cecil Wilkes is a really bred horse and his first crop of foals, (yearlings) are very fine lookers and show extra good as trotters. The indications are that he will prove a great sire.

There are other parties in the county owning stallions but failed to leave cards, therefore it is impossible for us to give extended notices.

Mt. Sterling Stock Yards have two stallions of Wilkes and Electioneer blood, one of them going a mile last season better than 2:20. Regan & Wilson have a combined stallion: W. H. Wyatt, a saddle stallion; Col. Thomas Johnson, a trotting-bred stallion; and N. B. Young, a stallion.

Changed.

John G. Overly, for two years night operator on the C. & O. at this place, has accepted a day position at Heleehawa on the O. & K. R. John is a model young man and our good wishes go with him.

Revenue Assignments.

Accepted a Position.

Joe Swope, of this county, has accepted a position with the Mt. Sterling Oil & Gas Company and is leasing lands for his company in Powell county.

School Trustees.

On the first Saturday in May there will be an election to choose three trustees for the Public Grad School of this city. Two of these are to succeed Messrs. Owen Laughlin and T. J. Bigstaff whose terms expire. The third is to fill out the unexpired term of H. R. French, which is now being filled by Chas. D. Grubbs, appointed to serve instead of Mr. French until the next election. We have interviewed these three gentlemen, in regard to continuance in this important trust, and can authoritatively announce, lat. that Mr. Laughlin will accept the position if tendered him, but that he is indifferent regarding his retention will cheerfully give place to another as he has held the position a long time.

2nd. Mr. Bigstaff will not longer serve the people and will soon make a public statement to that effect.

3rd. Mr. Grubbs will serve if the people so desire.

From the above it is apparent that at least one new man must be chosen—to take the place of Mr. Bigstaff.

Whether or not Messrs. Laughlin and Grubbs will be retained, rests with the qualified voters. Mr. Laughlin's past long service is a guarantee of what he can and will do. Mr. Grubbs is a cultured, refined, christian gentleman, who will closely guard the interest of this school; for in it are to be molded to a marked degree the future of our city's children. His retention is acceptable.

The Advocate has from time to time spoken on matters pertaining to the interests of the school and will be pleased to see its present high standard maintained and raised.

Believing that Dr. J. A. Shirley is a man worthy of the trust we suggest him as a successor to Mr. Bigstaff.

FACTS and OBSERVATIONS

At North Middletown, Plum, Etc.
As Happy as a Queen Enthroned.

On Friday morning the writer went out for a fresh breath and to see some people and fine country. A rubber tired buggy and a fine stepper over roads smoother than the streets of Mt. Sterling, added pleasure to the drive. In one field a lark sitting on the cap-stick of a hay stack discoursed sweet music and for all we know was happier than a Queen enthroned, and was taking no thought for the morrow; in another a gobbler seemed to be disturbed about something, and was strutting around as proud as a military man; in another a steer had thrown a porker to the ground and was rolling him; we checked our horse to go to piggie's relief, but just then the fun (for the steer) ceased, and we rode on.

We stopped for a few minutes at Sideview. The town was quiet. Lewis Price, the blacksmith, had recently moved to Stoops. Mr. Wilson took his place. Farmers are now busy repairing fence and plowing.

The pastures are beginning to look green. At Middletown we were informed that nothing had happened out of the usual, that the health of the community was good. An intimation was dropped that a popular young lady near town would soon be married. The attendance at the college is now 75. We always enjoy our trips to this section because of the natural beauty of the country, and the sociability of the people.

As we drove to Plum we paid our respects to Rev. C. W. Dick, at the Bryan house but everybody seemed to be away. At Plum we called at the barber shop presided over by Prof. Wilson of color. As we entered we saw that the room was much crowded. It appeared to be about 8 by 10 ft. We chatted, inquired about neighborhood news, and talked about matters and things in general, while the shaving proceeded. In that room were L. T. Higgins, Clifton Gillespie, J. W. Boardman, Jno. S. Hopkins, J. D. Stone, Oscar Hodges, R. H. Boardman, J. E. Gallagher, J. E. Boardman, I. T. Crouch, R. E. Reed, Prof. Wilson, the barber, and the writer—in all 12 men. Mr. Hopkins modestly claiming that he was the 13th.

There seemed to be a suppressed feeling in that crowd; perhaps the atmosphere was too close, perhaps the unexpected was about to happen or had happened. There appeared to be a disposition to laugh. They made no explanation and "star baby kept on saying nothing" about that, but said look in the Advocate next week.

As we bade them goodbye bowing out we said in substance: Gentlemen you can begin where you left off when we came in.

As we approached the building we saw what appeared to be an improvised checker board or other kind of board or something else, at which some of the men were looking; there was a shuffling of feet, chairs, etc., and one man appeared to be working with a drawer or case as we opened the door.

Our next call was at Little Rock. Thos McQuinthy, recently of Judy, has opened a black-smith shop here.

Darkness was upon us when we reached the home of J. B. Clark. As the family was at supper we accepted his invitation to refresh ourselves. At the table he told us of the advent on Wednesday evening of a new daughter, his fourth child. The eldest is Miss Alpha;—the baby has not been named. Enroute home by star light we stopped for a few minutes with the family of J. Harve Henry.

LOUISVILLE TOBACCO MARKET.

Farmers' Home Journal.

With cooler weather this week, and samples showing up in better condition a decided improvement is noticed in the tone of the market. Brokers seem to be a little more flush with orders and consequently the Continental and American Tobacco Companies have had a little more competition. As a result, the level of prices is a few bids higher than last week. As it was the medium and good grades which suffered most in last week's depression the improvement this week is more noticeable on these grades. Common lugs and trash, however, have also exhibited some more activity, while colory types have continued high and strong. Altogether the Burley market has been more satisfactory than last week.

DESCRIPTION

any stallion, star-strip, hind pasterns white, 15¾ hands high, foaled in 1884. A fine, large, well made horse with plenty of substance and quality. An exceedingly well bred horse, and a high class race horse. Secured his record in a five-furlong winning race, and was only beaten a heat in 2:10½ by but a few feet. ST. VINCENT'S opportunities have not been good; he has but few foals out of good mares. His list of performers are all trotters. He has never sired a pair. Lord Vincent 2:08½, is him, is everything considered, one of the very best trotters of the present day. He was far from being a smart horse, with even in that condition, he raced better and struggled harder than most horses that are free from soreness. ST. VINCENT will get great trotters, for in the last two years he has had a better class of mares. I like his breeding and am confident that he will sire great race horses.

ST. VINCENT will stand at the stables of the Mt. Sterling Stock Yards Co. at

People who are all run down—have no appetite—pale women and children—those who want to gain flesh—should try Vinol on our guarantee. It is just the medicine for old people and nursing mothers and all persons who have a hanging on cough or have any throat and lung disease.

Everything that is in Vinol is plainly printed on the label of each package. Remember that we guarantee Vinol and refund the purchase money if you are not satisfied.

THE SCRIBBLER

Mr. Edward Singer makes a hit
on the "pi" line in newspapers, in
the following doggerel. Some news-
papers serve "pi" often than
others and very much oftener than
their readers find it palatable. This
may prove a bolstering tonic to
them:

When you start to read a story,
And your energies you bend,
In a tense and rapid attention
To the interesting end,
Don't it jar you, don't it thrill you
With a rare ecstatic bliss,
When there's sandwiched in the story
A line like this:
Gilbert's knife glittered and, described
A semi-circle in the air, but his arm shot
down right and left and landed freud
end up.

It's the "pi" line of the printer,
Which will happen to the best,
And no "make-up" man has ever
Yet been found to stand the test:
For in spite of all endeavors,
Sometimes they are bound to miss,
And an interesting story's
Spoiled like this:
WASHINGTON, March 22, 1901.—It
is reported that the situation in the Philip-
pines is serious should enough weight be
entirelyly yabed.

After reading some of the bat-
taching advertisements of mining
and oil companies now appearing in
the newspapers, a popular member
of the Press Club, has evolved the
following advertisement, which may
be used by any of the promoters
without charge:

SEND US ALL YOUR MONEY.
We will keep it for you safely and
if you ever happen to
GET IT BACK
You will be a much slighter smarter
than we take you to be.

THE CHANCE OF A LIFE TIME
To lose everything you own in one
fell swoop.

OF WHAT USE IS MONEY ANYWAY?
If you keep it, you're a miser; if
you spend it, you're a spendthrift,
and if you lend it, you're a sucker.

SEND IT TO US.
We need it in our business.

disappointment, dismay, confusion
and sorrow of other persons con-
cerned. One who four flushes. A
person who does not make good.]

A quitter is a very disagreeable
person. He starts into a scheme
with great enthusiasm and declares
he will see it through to the end
and win or lose he will be present
when time is called, ready to deliv-
er the goods. But always at the
most critical moment the quitter
will develop a bad case of cold
feet. He will gum up the cards and
holer about a misdeal and grab his
money and fade away like the Arab,
leaving the other fellows in the
scheme to hold the bag and the
lighted candle like the Simple Reu-
ben does when snipe hunting. A
quitter can not be kept in until the
finish of the game as long as there
is a fire escape on a building, and
if there is no fire escape he will go
down in a parachute. The only way
to keep a quitter from quitting is to
chloroform him, and then bind and
gag him and put him in a safety
deposit vault with a time lock set
to open the day after the plan, busi-
ness, or enterprise which he started
is carried out.

A breach of promise case was
being tried in Savannah, Mo., a few
days ago and some rather "gushy"
letters were about to be read. The
Judge showed some intimate knowl-
edge of feminine nature by an
nouncing beforehand that if any
woman laughed aloud during the
reading of the letters he would fine
her "the price of a new hat." Not
a single laugh was heard.

WOMAN'S RELIEF

A really healthy woman has little pain or discomfort at the menstrual period. No woman needs to have any. Wine of Cardui will quickly relieve those smothering menstrual pains and the dragging head, back and side aches caused by falling of the womb and irregular menses.

WINE OF CARDUI

has brought permanent relief to 1,000,000 women who suffered every month. It makes the menstrual organs strong and healthy. It is the provision made by Nature to give women relief from the terrible aches and pains which blight so many homes.

GREENSBORO, LA., Oct. 14, 1900.
I have been very sick for some time. I was almost as if a severe pain in my side and could not get any relief until I tried a bottle of Wine of Cardui. Before I had taken all of it I was relieved. I feel it my duty to say that you have a wonderful medicine.

Called Meeting of City Council.

At the regular monthly meeting of the Council on Tuesday evening a claim amounting to more than \$900 for first quarter rental was presented by Geo. W. Baird, the Treasurer of the Mt. Sterling Water, Light & Ice Co. A committee composed of Councilmen Betts, King and Hainline was appointed to consider the claim. At a called meeting of the Council on Saturday night they made their report, whereupon the following resolution, in substance, was adopted:

That the claim filed by the Company for one quarter's rental for fire hydrants for the city be not paid. That the Fire Company return all wrenches, etc., to the Waterworks Company, and are forbidden to use the hydrants of the Water Company until such a time as the regular tax has been made and accepted by the city. That Mr. Baird notify the Company that the city has extended its time for completion of said plant until July 1, 1902, and that such proposition for a test or acceptance of said waterworks will be entertained by the city until such a time as the plant is completed according to their contract with the city, including a 150-foot standpipe and all necessary filters put in.

Farmers are quite busy preparing ground for planting. Feed of all kinds is scarce at this season than for many years. The wheat crop has made great improvements and now looks like an average crop may be expected. Farmers are fearful of losing a great deal of the spring clover from freeze of last week. Stock of all kinds is below average in flesh this spring.

Those, with Thomas J. Young, of this city, and R. F. Elam, of West Liberty, compose the directors. Mr. Henry Cox, of West Liberty, was in town, and is also associated with the company.

For Sharpsburg.

Another railroad corporation to file articles of incorporation at Frankfort on Wednesday, was the Mt. Sterling and Sharpsburg Electric Railway Company. It has \$30,000 capital stock and will build a line between the points named. The incorporators of the company are Judge Edward C. O'Rear and John E. Cooper, and Henry H. Frewitt, of Mt. Sterling, and J. Owen Ratcliff and M. V. Houtain, of Bath county. Work will be begun shortly.

The gentlemen back of this enterprise are full of push and determination and our information is they have arranged to push it to an early completion. However they will not be in the way of any other company in the building of this line, should they go up against any stubborn obstacles. Such a line would bring immeasurable benefits and business to both Sharpsburg and our people.

New Road Projected.

The South and Western Railway Company of Pike county, a corporation with \$10,000 capital stock, filed articles in the office of the State Railroad Commission at Frankfort on Tuesday. Change at Eversley Seminary.

The expected departure from our city of Rev. G. C. Abhatt at the close of the school year will necessitate a change in the management of this school. While we regret to lose Rev. Abhatt as an educator, we are pleased to announce that Mrs. W. F. Hibler and Miss Mamie Turner have decided to assume control of this institution. In due time their arrangements will be perfected and the public will be informed as necessity requires.

These ladies are not strangers in our midst, as Miss Turner is a native of our city, and Mrs. Hibler has been a resident for 19 years; nor are they novices in teaching. Their connection with the Public Graded School is well and favorably known and has frequently been commented on in our columns, especially that of Mrs. Hibler, who for many years was Principal.

While we have not been informed as to their plans and purposes, we wish them much success.

MARRIAGES.

The engagement of Miss Annie Willis, of Pine Grove, Clark county, and Dr. Wm. Mithoffer, of Cincinnati, is announced. The wedding will take place in June. Miss Willis is one of Clark's society girls and is well known in this city.

Rev. W. W. Horner, pastor of the Sharpshooter Baptist Church, passed through here Friday with his young wife for their home at Sharpshooter. The Pastor was all aglow with smiles. We know he is happy for, indeed he had with him a lovely woman of the best blood; a sweet, modest, cultured wife. It was our pleasure to congratulate the husband and wife.

At Denver, Colorado, at the home of her sister, Mrs. Robert McConnell, Miss Mary Crit Lane was married, Wednesday last, to Mr. Hunter Bailey, of Anaconda, Montana. We announced last week that the wedding would be consummated on the 23d inst., but the contracting parties thought it would be a pleasant surprise to wed at an earlier date. Miss Lane is one of our attractive and popular young women and it

is with pleasure we tell our people that Mr. Bailey is prominent in business circles, being connected with the Anaconda copper mines. We wish them much happiness and trust they may be of worth to the world in which they may move.

On Wednesday evening, April 2, 1902, in this city at the home of the bride's father, Mr. Enoch Bruton, Mr. John Robinson was married to Miss Sallie Bruton, Rev. H. D. Clark, performing the ceremony. Messrs. Harold Johnson and John Judy were ushers. The home was beautifully decorated. The bride and groom stood beneath a canopy of white and green from which was suspended the marriage bell. The bride was gowned in white Paris muslin and carried a handsome shower bouquet of bride's roses and violets. The groom wore the usual black with white gloves. The bride is a native of our city, is a social, intelligent, energetic and christian young lady with many friends. The groom, during his residence of a few years in our midst, has been with John W. Jones, the jeweler, and has by his attention to business and gentlemanly demeanor made many friends who congratulate him in his choice of a wife. They were

the recipients of many ornaments and useful presents. They left on the night express for a short wedding tour and will today be at home to their friends on Harrison Avenue with the family of the bride. We extend congratulations and best wishes.

The marriage of Miss Sue Clay, daughter of the Hon. C. M. Clay, Jr., of Bourbon, to Dr. Goodman, of London, England, will be solemnized at the mansion "Auvergne," near Paris, on April 22. Dr. Goodman will arrive on the 14th from Cairo, Egypt, where he is located as corps surgeon in the English army. While visiting with friends in England, two years ago, Miss Clay became ill and Dr. Goodman was called in. From this acquaintance results the marriage.

We are informed that a widow in this city has had only 12 proposals this winter.
